

Anudeshya Saxena

Web Developer
ML Enthusiast

EDUCATION

2023-Current

Department of CSE
AI&ML
Bachelor's
SRM Chennai

SKILLS

Professional

- React
- HTML
- CSS
- JavaScript
- ML Models

CONTACTS

- anudeshyasaxena@gmail.com
- 7523900928

PROFILE

Started creating websites in my first year of college.
Developed a keen interest in AI&ML Models gradually and started to concentrate more on training ML models and learning GenAI.

Projects

Sentiment Analysis Chatbot | Jupyter

Created and trained a ML model focusing on analyzing the sentiments of tweets made by users on X. It was my first ML project and I created GUI using python. Still upskilling and learning more on RNN and deep learning and expanding my knowledge on the domain.

- Keras
- Tensorflow

Generative Text Website |

Created a website with enabled generative AI technology using openAI API .

JS & React Projects |

Worked on more than 20 projects using JS and React which include responsive landing pages and some basic games. Also created a keylogger using JS and a Digital signature app through which user can sign digitally and download it locally.
